Guardian Financial:

Note: The instructors suggest that students use equipment from home, if available. By using equipment from home, students benefit by learning to use their own equipment. Students do not need to bring personal equipment to school. It is not necessary to purchase equipment specifically for this class. Go to WWW.CENTRALPHOTO.WEEBLY.COM for a list of usable cameras. Any 35mm or 120mm camera will work.

I give my student permission to borrow and operate school equipment. I understand that I am financially responsible for any damage or loss of the equipment from the time my student signs it out until it is returned to the instructor. Replacement costs for equipment, such as digital cameras, can exceed \$500.00.

Materials:

I am aware that students must supply their own film and photo paper for Foundations in Photography. I am also aware that film and photo paper is available at the school store.
